

Svitlana Shmyhol

Frontend Developer / Web Developer

As a Front-End Developer with a strong background in web design, I create performant, visually engaging, and user-centered websites and applications that seamlessly combine aesthetics with functionality.

Relevant Experience

Frontend Developer · Breezy 2024 – Present

As a Frontend Developer at Breezy, I am responsible for the continuous development and optimization of the company's e-commerce website. My work includes maintaining existing functionality, implementing new pages, and ensuring a high-quality user experience across all devices.

Key achievements and responsibilities:

- Implemented the homepage and product page according to the new design.
- Migrated several parts of the website from PHP Blade templates to Vue.js, improving maintainability and performance.
- Optimized the site's performance to achieve green scores across Core Web Vitals metrics.
- Developed new landing pages and feature-specific sections to support marketing campaigns and product launches.
- Collaborated closely with the team to ensure smooth integration and pixel-perfect implementation.

Tech stack: HTML, SCSS, JS, Vue.js, Laravel Blade (PHP Templates), Git / Webpack

Frontend Developer · Zentrix 2023 – 2024

Responsible for maintaining and expanding the website, implementing new pages and features, and ensuring cross-browser compatibility. Collaborated with designers and developers to deliver high-quality, fully functional web solutions.

Tech stack: HTML, SCSS, JS, React, GSAP

Frontend Developer · HackenProof 2021 – 2023

I worked on the project as a designer and front-end developer. We developed the company's new website, its client and hacker dashboards, and provided support for the old website.
